JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

WEST INDIES.

Report from Port of Spain, Trinidad—Quarantine against Trinidad—Measures for destruction of mosquitoes on vessels.

Consul Handley reports, March 30 and April 6, that most of the West India islands and British and Dutch Guiana have quarantined against Trinidad, Port of Spain having been declared infected with yellow fever. Passengers leaving the island are required to be examined by the health officer immediately before the departure of the vessel, and measures will be taken for the destruction of mosquitoes on vessels.
